Security Engineering
CSRF Protection, HMAC Verification, RBAC, Middleware, KYC, Rate Limiting, Audit Logging

Data & BI
Power BI, DAX, KPI Reporting, Data Cleaning, Dashboards, ETL Fundamentals

Soft Skills
Analytical Thinking, Ownership, Attention to Detail, Communication, Collaboration

EXPERIENCE

Full-Stack Developer

Jul 2025 – Present

Hair Rap by YoYo Pvt Ltd

- Built DonateBaazar, a fundraising platform, from the ground up across backend architecture, database design, business logic, and core features.
- Built a secure five-step Razorpay payment flow handling verification, webhook events, duplicate requests, and refunds for reliable financial records.
- Strengthened application security with 18 controls, including CSRF protection, rate limiting, role-based permissions, KYC verification, account-status checks, and audit logging.
- Integrated an AI-powered support chatbot using Anthropic Claude to help donors resolve common questions quickly.
- Set up background email processing for welcome messages, receipts, campaign updates, and security alerts.

Software Engineer

Dec 2023 – Jul 2025

Infomaticae Technology Pvt Ltd

- Contributed to multiple web applications, including Tata Pravesh and its lead management platform, building and enhancing features for business operations.
- Developed backend functionality with Laravel, PHP, and MySQL, translating business requirements into reliable, maintainable features.
- Optimized schemas, SQL queries, and indexes, achieving an approximately 40% reduction in query execution time in optimized areas.
- Integrated third-party REST APIs and strengthened error handling, logging, and failure recovery for more reliable integrations.
- Collaborated across requirement discussions, sprint planning, code reviews, testing, and releases.

Developer Feb 2024 – Feb 2025

Alongkari

- Developed and maintained WordPress websites using custom themes, plugins, and page builders.
- Customized layouts and functionality to meet client requirements and improve user experience.
- Built responsive, user-friendly pages optimized for desktop, tablet, and mobile devices.
- Integrated plugins for forms, functionality, and content management, and managed updates, troubleshooting, and performance improvements.

Junior Web Developer May 2022 – Dec 2023

FliqaIndia

- Developed and customized WordPress websites using themes, plugins, and page builders.
- Created responsive layouts using Elementor, HTML, CSS, and JavaScript.
- Integrated and configured plugins to deliver client-specific functionality and improve user experience.

PROJECTS

Vehicle Theft Analysis PostgreSQL · Power BI · DAX

Regional theft dashboard analyzing patterns across regions, identifying a 70.6% rise, with risk scoring and heatmaps to support planning and enforcement.

Blinkit Sales Dashboard Power BI · DAX

Sales dashboard with custom DAX measures, dynamic KPIs, and trend analysis for tracking performance with drill-downs.
